

EVERYTHING ASPHALT

Martin Asphalt Company

"Your Texas Source for Everything Asphalt"

For Your Asphalt Needs

At Martin Asphalt, you can find **Everything Asphalt**—a full range of asphalt products meeting ASTM, TxDOT, AASHTO and local specifications for building, maintaining, rehabilitating, recycling and preserving roads. The company also manufactures numerous specialty asphalts, blended to customers' needs and specifications. Martin also provides technical assistance to help you select the right materials and applications for your project.

The company's product slate meets your **Everything Asphalt** requirements. This ranges from road and highway construction, maintenance, repair and preservation products and services to below ground pipe joint sealers and road top marker adhesives. In the commercial and residential building arenas, Martin Asphalt supplies a wide range of flooring and roofing asphalts and asphalt additives—as well as other special asphalt products custom formulated for your processes.

Martin produces and keeps in inventory a wide variety of water-based asphalt emulsions. Asphalt emulsions are safer, cleaner and more fuel-efficient than traditional asphalts and are widely used for cost-saving pavement construction, rehabilitation, recycling and preservation. Your chip seals, micro-surfacing, slurry seals, in-place and maintenance mixes, asphalt recycling, priming and tack coats, erosion and dust control applications all benefit from the use of Martin Asphalt products.

Technical Expertise for Your Projects

The skilled technicians in the company's AASHTO Certified, full-service research and development laboratory formulate, test and approve materials and procedures to meet your specifications and exceed your expectations. In addition, the staff is consistently researching ways to enhance product performance both during and post application.

Products Meeting Your Specifications and Schedules

Your asphalt products are assured "On Time" availability to your required specifications through Martin's Gulf Coast network of production plants, storage facilities and its transportation fleet, which includes ocean-going and inland barges, rail cars and tank trucks. With this kind of support, your projects are going to be cost-effective, on-time and on-spec when using Martin Asphalt products and materials.

Martin Asphalt Company is a newly formed entity of Martin Resource Management Corporation and is based in Houston, Texas. Martin Asphalt combines the product knowledge and service experience of the former Gulf States Asphalt Company and Prime Materials and Supply. These now pooled resources have over 60 years of providing quality asphalt products and services to both the pavement and specialty industries.

Call or e-mail us for ideas on how to cut your overall costs while providing your customers with superior quality asphalt products and services.
